Winter in Fernie, BC

Winter season is what Fernie is most known for across the globe thanks to legendary annual snowfalls. From November to mid-April, snowy mountains bask in bright winter sun above our welcoming town. Forest trails and alpine bowls create a winter wonderland offering acres of unrivalled adventures and soul-soothing activities.

The very mountains that we play among have inspired the legends that define Fernie, where the mythical Griz brings the pillowy soft snow that we call champagne powder. Celebrate the best of winter at the annual Griz Days winter festival in March.

The winter season has been welcoming and inspiring visitors for decades to enjoy ski slopes at Fernie Alpine Resort, acres of Catskiing in two distinct areas, extensive big mountain snowmobiling terrain, and maintained trail systems for Nordic skiing, snowshoeing and fatbiking. The convenience of ski-in ski-out lodging, a diverse range of on-mountain and in-town dining options and warm mountain hospitality provide guests with a true Canadian Rockies experience.

Fernie Alpine Resort

Situated on the Powder Highway, Fernie Alpine Resort benefits from the best of the northwest weather effect known locally as the 'Fernie Factor'. The encircling mountains create a microclimate – bringing wave after wave of fresh white powder snow and turning each day into a thrilling new adventure of ever-changing vistas and discoveries.

An average of over 30 feet / 9 metres of snow per season and 145 run for all abilities would be enough to keep most skiers and riders happy; add to this high-speed quads with virtually no lift lines, five alpine bowls, extensive gladed terrain, plus the joy of skiing without the need to acclimatize, and you may just think you've hit the winter jackpot.

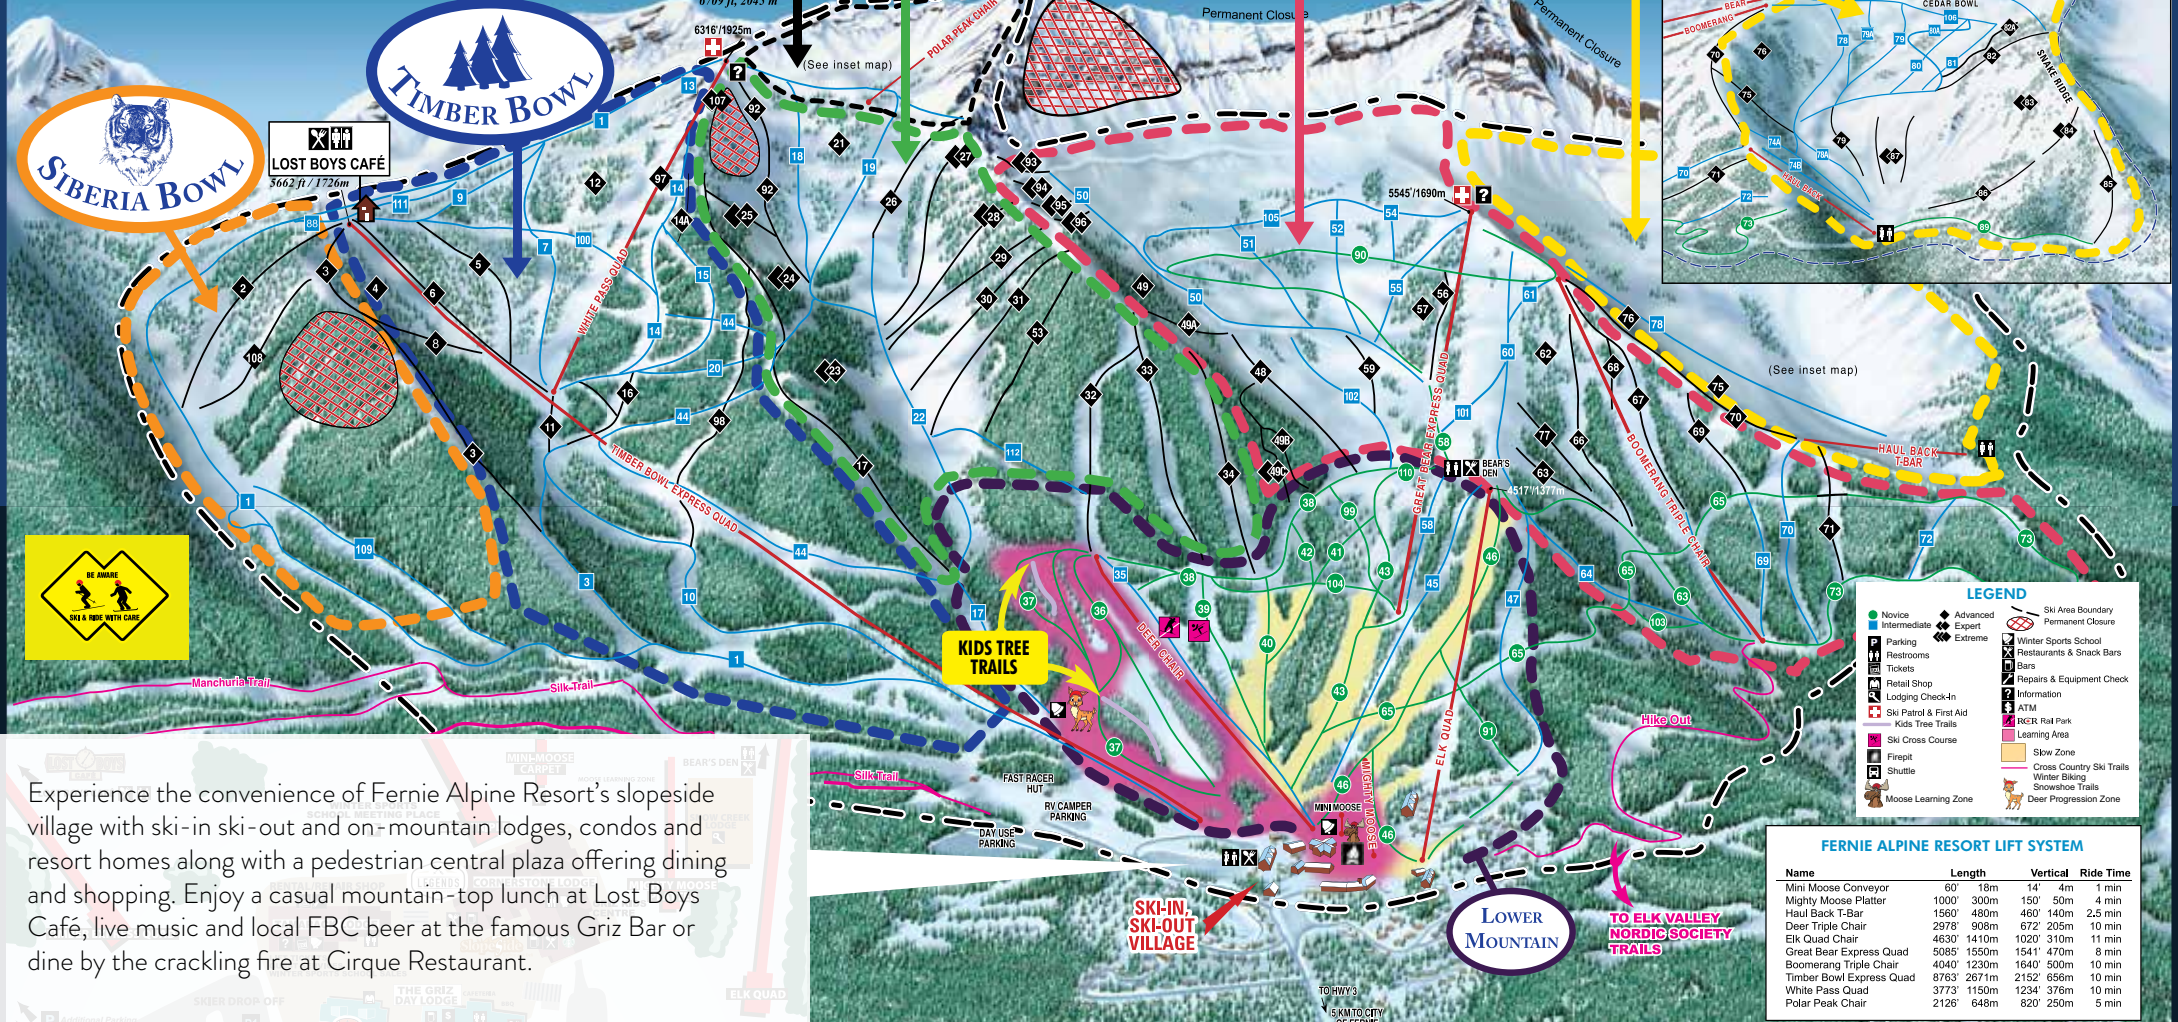

Blue runs offering extensive intermediate terrain conveniently connect to gently graded and immaculately groomed beginner runs. The sheltering ridges of the Lizard Range tower over the expansive glades and open profiles of the alpine bowls at Fernie Alpine Resort's powder-packed upper reaches. Steep, deep and daring advanced terrain is featured across the mountain, with black and double black diamond runs which add challenging aspects and extreme gradient powder runs for confident intermediates and experts.

More than just a ski and snowboard destination, there is a passionate outdoor culture at Fernie Alpine Resort that celebrates the natural beauty of the Rocky Mountain environment and all it offers. Share stories with new friends as you enjoy après drinks and dinner around the resort, hop on the shuttle for a night in town or retreat to your private hot tub to soothe away the day's exertions.

EXTREME TERRAIN

Experience the convenience of Fernie Alpine Resort's slopeside village with ski-in ski-out and on-mountain lodges, condos and resort homes along with a pedestrian central plaza offering dining and shopping. Enjoy a casual mountain-top lunch at Lost Boys Café, live music and local FBC beer at the famous Griz Bar or dine by the crackling fire at Cirque Restaurant.

Catskiing explorations in the backcountry.

For over 30 years, Fernie has set the standard for catskiing and snowboarding. Combining vast terrain blanketed in over 40 feet of untouched powder with professional guiding, catskiing is the ultimate backcountry experience for intermediates and experts. Relax and enjoy the safety and comforts of a snowcat as it delivers you to the start of each new powder run.

For a taste of this epic style of pampered powder skiing and riding, book a single day or two with Fernie Wilderness Adventures; a family-operated catskiing company since 1986. Each day ends at their rustic backcountry lodge to relax with newfound friends and enjoy après ski in front of the fire. For a fully immersive experience, award-winning Island Lake Catskiing offers multi-day all-inclusive catskiing adventures complete with spectacular alpine and gladed terrain, secluded luxury lodging and gourmet cuisine.

Endless snowmobiling adventures.

Venture into Fernie's backcountry and experience some of the best riding in the Rockies. Fernie offers a fantastic combination of regularly groomed trails, fun play areas for all abilities, and some of BC's best technical treeline-style riding.

Convenient staging areas and groomed trails are only minutes from town. The welcoming on-trail facilities of Wranglers Cabin and Rolling Hills Cabin offer a great spot to warm up, meet other sledders and enjoy your packed lunch. The Coal Creek area attracts riders of all abilities, while Morrissey offers exceptional intermediate to advanced riding options. Hartley Lake, Corbin, and Ram Creek provide advanced terrain for experienced riders.

The Fernie Snowmobile Association manages five riding areas in the valley under partnership with private landowners and the government. A trail pass is required to sled the valley and can be purchased online or in person at the trailhead before you ride. Visit ferniesnowmobile.com for details on riding areas, trail maps, passes, grooming and event schedules.

Sled rentals, snowmobile gear and parts are available through Ghost Rider Motorsports; Elk Valley Rentals offer snowmobile rentals. Avalanche equipment is available at Gearhub Sports and The Guide's Hut.

Enhance your backcountry sledding experience and safety with professional support. Elk Valley Snow Shepherds offers avalanche courses, guided adventures, and various levels of riding clinics for both snowmobilers and snowbikers. Weir Boondocking offers a variety of coaching and riding clinics.

Self-Powered Trail Adventures.

Clear crisp air, groomed and track-set winter trails and spectacular old-growth forests provide a sublime setting for activities of a self-propelled nature. Pick up the new Winter Trail Map before you go or use the Trailforks App. For guided hiking and backcountry touring, contact Mountain Addicts or Hike Fernie.

Nordic Skiing

Cross-country skiing has become as much a part of the community culture in Fernie as alpine skiing. Over 42km of groomed, track-set trails keep cross-country skiers of all abilities active with magical mountain views to enjoy along the way. For grooming updates visit fernienordic.com/grooming.

The Fernie Nordic Society operates two separate areas each for cross-country skiing only. The Elk Valley Nordic Centre near Mt Fernie Provincial Park features a groomed and track-set loop alongside Lizard Creek which undulates through the forest for gentle challenges and beautiful views ideal for intermediate level skiers. Gentle beginner-friendly loops at Fernie Golf Club offer spectacular big mountain views.

Multi-use trails at Fernie Alpine Resort and Montane are ideal for mixed use and well-behaved pets. Montane also offers a number of ski-only trails and a warming hut with views across the valley. The Town Loop from Fernie RV Resort to James White Park is groomed regularly and popular with all users.

Snowshoeing

Rent or purchase snowshoes in town or at Fernie Alpine Resort. Snowshoeing is a great way for the whole family to enjoy multi-use trails and enjoy the fresh air and abundant open spaces. Explore the trails at Mt Fernie Provincial Park, Fernie Alpine Resort, Montane and the Town Loop along the Elk River. For more adventures, try the Fairy Creek Falls Trail or Ridgemont.

For guided tours and immersive experiences contact Fernie Alpine Resort or Hike Fernie.

Fatbiking

Fernie's coolest winter activity – Fatbiking – takes you along groomed multi-use trails through the trees and up to viewpoints, if you're up for the challenge! Bring your own fatbike or rent or buy one at local bike shops and just go. If you can mountain bike you can fatbike, though it doesn't take much to get a sweat on, even in -10c temperatures. Read the Fatbiking 101 blog on our website.

A diversity of trails cater to this great activity. For beginners, practice along the Town Loop then progress to the Adaptive Trail up to Montane Hut. For the more experienced try the new Montane Blue, Lower Ridgmont or Fernie Alpine Resort. More advanced options include Phat Bastard, Mushroom and Red Sonya, Upper Ridgmont or CONTRA.

Learn-to-fatbike and guided tours are offered at Fernie Alpine Resort on the daily-groomed multi-use forest trails and on community trails with Ridetheory. Pick up the Winter Trail Map before you go or use the Trailforks App.
