

FERNIESTOKE SHUTTLE

Complimentary* Ticket Program for Overnight Visitors

What is the Complimentary Ticket Program for the FernieStoke Ski Shuttle?

Sponsored by Tourism Fernie, the program was developed to provide value to visitors and encourage visitors to explore the town and local businesses. Visitors staying overnight, up to 27 nights, and upon check-in, can request a special ticket, or code to use on the App, to access free shuttle tickets. Tickets are limited and not for groups.

I'm an overnight visitor; how do I get the complimentary tickets?

Only visitors staying with member accommodation properties qualify for complimentary shuttle tickets (see who is a [member accommodator](#)). All major hotels and lodging properties in Fernie, and at the resort, are members. Once you arrive and check-in you can visit or call the front desk or lodging contact for the tickets, or a special complimentary ticket code to use on the Shuttle App. The shuttle program is not for groups due to limited seating. The number of tickets provided may be limited. One ticket is valid for one-way shuttle ride per person. Example, if there are two of you wanting to go to the ski resort and back you will need 4 tickets.

How long are the complimentary tickets valid for?

The tickets you receive are valid for the duration of your stay, this ski season only. The tickets will expire. If you are provided with physical tickets please return any unused tickets to the front desk if possible.

If I have more questions or feedback whom do I contact?

- Please email us at shuttle@tourismfernie.com with any feedback, concerns or to praise a driver!

** Free or complimentary tickets may be limited in quantity and are not for group transportation. Seating is first-come first-served and is limited. Groups requiring transport for specific times and seating capacity must make alternate arrangements.*
